

## We're on a mission to make travelling with baggage better for our planet

**Unlocking a Greener Future for Travel:** It's time to lighten aviation's load. Did you know that your baggage has a significant impact on the footprint of your flight? Join us in our mission for Net-Zero Aviation, hand in hand with industry pioneers. Dive into eye-opening insights, team up with fellow stakeholders, and earn a coveted certification. Together, we're rewriting the rules and steering towards eco-friendly travels. Welcome aboard Greenbaggage, powered by NACO and BagsID.

### Initial insights

### Why join Greenbaggage?

Reveal the carbon footprint of the whole baggage journey

Get advice on how to reduce CO2e footprint

Access to emissions tools (eg: CO2e calculator integration)

A platform for knowledge sharing and stakeholder collaboration

Unlock costs savings for airlines and airports on kerosine and electricity

Certification program with certified audits

### How it works

1 Share input data

2 Create a benchmark

3 Introduce pilot initiatives as proof-of-concept

4 Total supply chain SLA's

5 Certification PDCA

Join Greenbaggage now to obtain actionable insights to reduce environmental impact
